

Ceramic Tile Drills
Multi-Facet Tungsten Carbide Tip

Bordo's range of Rotary Only Ceramic Tile Drills afford extreme performance and extended tool life in even the hardest ceramic materials. They feature a unique multi-facet tungsten carbide cutting edge in conjunction with high temperature brazing to ensure reliable and accurate drilling in multiple hole applications.

Bordo's range of Ceramic Tile Drills are ideal for cutting:

- Ceramics
- Tiles
- Natural stone
- Composite materials

Use of water cooling will extend bit life.
