

POWERBORE AUGERS

Bordo's range of PowerBore Auger bits out-perform and out-last conventional augers in tough Australian hardwood.

Features

- Aggressive self feeding, high speed steel threaded split point
- Fully ground cutting tip
- Heavy duty construction for a long life drilling the toughest timber
- Robust 11mm (7/16") hex shank eliminates chuck slip and maximises torque
- No worm point to break or wear

Usage

- High performance drilling in the toughest timbers
- Ideal for fence posts, sleepers, structural hardwood and other difficult timbers
- Repetition drilling in hardwood
