BUYER'S GUIDE 10/2023

# MVRK

**Product development and design is part of the Bordo DNA, and the exciting new MVRK range showcases this.**

Piranha Multi Function Snips exemplify our design philosophy. Their ergonomic handles have been designed and shaped around ease of use and maximum comfort in the hand. These no-fuss, ambidextrous handles make it so easy to pick the snips up. There's no right or wrong way, just your way! Piranha Snips can open and close in one motion regardless of which way they are picked up. And with a spring tension that has been finely tuned for low fatigue operation, Piranha Snips are ideal for continuous use day in and day out.

With safety being of the highest priority MVRK products have been carefully designed with innovative safety features built in. MVRK Piranhas and Aviation snips come complete with a patented holster to protect the user and prevent accidental contact with the blades. And when it comes to utility and snap blade knives the MVRK range has some unique auto-retracting and self-retracting products to choose from.

Much of the MVRK range is unique in terms of quality. The Professional Electrician's Scissors, for example, have solid stainless steel core handles – the only ones of their kind in the world. And a first class range of cutting tools is not complete without having blades of the highest quality and sharpness. The Ultra Sharp premium range are precision ground, double honed and made from SK2H carbon tool steel. The sharpness and edge holding properties of these blades are unmatched in the industry. Universal Anvil Shear blades are Teflon coated, Piranha Multi Function Snips are available in High Tensile stainless steel, and the MVRK jab saw features impulse hardened cross cut teeth that stay sharp for longer.

**When it comes to quality MVRK has you covered.**

## 42MM DUAL GEAR RATCHET PIPE CUTTERS

PART #	TYPE	PACKAGING	QTY
1022-2642	MVRK 26-42MM PIPE CUTTERS	HANG SELL	1

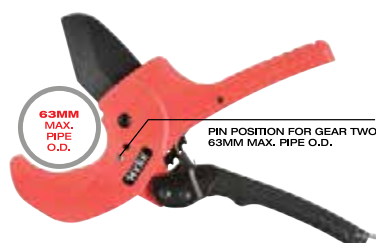

Engineered nylon and aluminium handles.  
Fast and clean cutting teflon coated stainless steel blade holds a very sharp edge and has high abrasion resistance.  
Large, durable ergonomic handles for control and comfort.  
Suitable for cutting: PVC (polyvinyl chloride), CPVC (chlorinated polyvinyl chloride), PVDF (polyvinylidene fluoride or polyvinylidene difluoride), PB (polybutylene), PE (polyethylene), PP (polypropylene) and PEX (cross-linked polyethylene) pipe and conduit, tube and hose.  
These cutters feature two opening positions that are easily adjustable using the gear change pin.  
When cutting pipe not exceeding 26mm O.D. selecting gear one will limit blade retraction reducing operator fatigue.  
Simply lock the cutters in the closed position, push the gear change pin out and re-locate to the required hole.

## 63MM DUAL GEAR RATCHET PIPE CUTTERS

## OUR CORPORATE PHILOSOPHY

Bordo International is synonymous with excellence in industrial cutting tools, accessories, and threading products. Bordo's head office is located in the Eastern suburbs of Melbourne and uses a comprehensive distribution network throughout Australia. Founded in 1987, Bordo remains a 100% family-owned Australian company with offices and warehouses in Europe and the USA.

Reflecting our total commitment to excellence, our mission is to provide a complete cutting tool range of a quality and reliability that exceeds our customers' expectations and requirements, and a service level second-to-none in the market.

## PRODUCTS

As Industrial Cutting Tool and Power Tool Accessory specialists, our extensive product range is one of the most comprehensive in the industry. Our continually expanding range of precision cutting tools ensures you need look no further for all your industrial cutting needs. All of our products have been carefully selected and determined to be the best quality of their kind in the world.

## SERVICE

Bordo International is committed to working with our suppliers and customers to improve and expand our range of cutting tools and power tool accessories, whilst continuing to provide the highest levels of service. We are supported by a team of technical and production experts who ensure that all specialised tooling requirements are met to our customers' exacting specifications.

## VISION

The Bordo Quality Commitment exists throughout all levels of our company – products, service, vision. We source our products from the world's finest manufacturers, maintaining our 'quality without compromise' ethos. Our commitment results in the most reliable and competitive package available – when you use our tools you can be assured you are getting the very best the world has to offer.
